PHOSPHORUS & POTASSIUM 1988

LIST OF CONTENTS

Issue Number 153 January-February 1988

	Page
Transport: opening the door in Europe	8
Haifa Chemicals: specialty strategy in KCl and P_2O_5	14
Western Europe's P_2O_5 Industry: which way now?	17
Caustic potash	22
Safe disposal of phosphogypsum on land	25
High purity red phosphorus and phosphoric acid	29

Issue Number 154 March-April 1988

Freight rates: real revival or simply cyclical?	8
Brazilian potash: Petromisa's plans for expansion	13
Impact of Tunisia's expanded phosphoric acid capacity	17
Phosphate rock market review	22
Saudi Arabia: potential to produce phosphate rock	25
Recovery of phosphate values from crude slimes	28
Supplement: NPK contractors profile	

Issue Number 155 May-June 1988

Potash into the 21st century	15
The future of US supplies of P and K raw materials	21
Seeking a by-product market for phosphogypsum?	25
Fertilizers by the nitrophosphate route	28
Statistical supplement	37

Issue Number 156 July-August 1988

Phosphoric acid shippers plot new course	15
The future for P and K suppliers to China and India	18
New marketing for Soviet potash	24
Making chloride-free fertilizers	27

Issue Number 157 September-October 1988

Potash in Asia	16
Market trends in feed phosphates	25
Mitsui Toatsu Chemicals' new phosphoric acid process	29
The status of ammonium phosphate manufacture	32

Issue Number 158 November-December 1988

The future of the US phosphate industry	9
Distribution constraints in today's fertilizer markets	17
Forecasting potash demand using population growth values	18
Development of gypsum as a road base material	21
Getting the best out of potash mining machines	23
